

# Introducing HomeSafe Pro

Our newest addition the HomeSafe Pro Consumer Unit offers an all metal construction and improved aesthetics, providing the perfect solution for complying with the requirements of BS7671, Amendment 3 of the IET wiring regulations. The new range is supplied with a number of installation options and includes vital cable glanding accessories to simplify and speed installation.

- Interchangeable gland plates are supplied to suit both mini trunking and circular glands
- Non Flammable, high IP rated pierceable cable membranes included, to speed installation
- Rear entry cable guards to protect cables
- Modern sparkle white, easy clean paint finish
- Unique installation plaster guard to protect against ingress of foreign materials during construction

Trusted switchgear technology
